RÖDL

Our presence in Uzbekistan

Uzbekistan is considered as one of the most interesting and attractive growth markets in Central Asia in terms of the latest changes in the country economic life. The reform course initiated by the Uzbek government in 2017 is already bearing fruit. These include improved business conditions, implementation of numerous joint venture projects between foreign and Uzbek partners worth more than 55 billion USD, privatization of stateowned enterprises and general economic liberalization. This has awakened the interest of foreign companies in Uzbekistan.

Today, Uzbekistan is at the center of attention not only because of its successful reforms, but also because of its location in the heart of Central Asia, rich natural resources, availability of motivated and young workforce, favorable wage costs and openmindedness, especially towards German companies and investors.
